KNOTS.
Life is a tangled sort of skein.
Some of the knots are full of pain.
But all the same there's lots of fun
When each day's work at last is done.
To put our stock of care aside
And see how many we've untied.
—Selected.

A PEACEFUL VICTORY

AFTER the democratic members of the house and senate had given President Wilson loyal backing on the submarine issue last spring (despite republican opposition in the house) it was not long until our state department had effected a satisfactory settlement with Germany.

The settlement was in accordance with international law and the basis was the following pledge given by the German foreign office on May 5, 1916:

The German government, guided by this idea, notifies the government of the United States that German naval forces have received the following orders:

"In accordance with the general principles of visit and search and the destruction of merchant vessels recognized by international law, such vessels, both without and within the area declared a war zone, shall not be sunk without warning and without saving human

lives, unless the ship attempt to escape or offer resistance."

The pledge made by Germany at that time has been observed. There has been no sinking of ships without warning and consequently the lives of non-combatants have been safeguarded.

This result President Wilson secured through diplomacy. He secured everything that could have been desired by this country and not a shot was fired.

How much better is the Wilson way than the Roosevelt way or the Hughes way. Roosevelt would have gone to war with Germany. Hughes has said in effect that he would have broken diplomatic relations with Germany upon the sinking of the Lusitania and such a step would have doubtless taken us into the whirlpool.

The country has been most fortunate in having Woodrow Wilson in the White House; there is need of four years more of the same ability and idealism.

WHY WALL STREET BETS ON HIM

MR. HUGHES invites Wall Street to move into the White House with him, and Wall Street responds by betting 7 to 5 on his election. The championship is close and exceedingly gracious, and yet the delightful association does not excuse misstatements on the part of the candidate.

Dollar Diplomacy, for example, which Mr. Hughes eulogized so fervently at Baltimore, contemplates much more than the extension of American enterprise abroad under official encouragement. It is a partnership between Big Business and Government, Big Business making the money and Government using the Diplomatic Corps and the army and navy for purposes of promotion and collection.

It was because President Wilson refused to continue this arrangement that the Chinese loan failed, and not, as Mr. Hughes asserts, because there was any unfriendliness to legitimate American undertakings in foreign lands. The credit of China was not good enough for Wall Street, unless underwritten at Washington; that is all.

This is the sort of thing that Mr. Hughes is now openly promising to restore not only in China but in Mexico, and it is for this reason that his campaign chest has been stuffed with the greatest contributions ever known. There is an important difference, however, between the present can-

didate and some of his predecessors in republican party leadership. They accepted Dollar Diplomacy in principle, but in secret. He boasts of it and glories in it, and seems to ask if there is anything else that Wall Street wants.—New York World.

SHOCKING

EVIDENTLY the Golden Special did not make a tremendous hit in Portland. How ungrateful of the Portland ladies not to be more impressed with the grandeur and social importance of the New York dames who sponsored this glorious expedition. They do not seem to have been awed by the wealth of Mrs. Hearst, or Mrs. Oliphant or the Newport reputation of Mrs. Harry Payne Whitney. They were not moved by the fact the sister of J. P. Morgan was one of the contributors to the fund that made possible this trip to the wilds of the west.

Something should be done to educate our feminine element on the subject of more respectful conduct toward the elite and those who travel in their behalf with all expenses paid and doubtless a little more besides. The situation is most shocking.

28 Years Ago Today

(From the Daily East Oregonian, Oct. 16, 1888.)

The Pendleton bank will give a grand ball next Thanksgiving night, which will be well worthy of patronage by all ages and sexes.

A pleasant donation party was tendered Rev. Howard, the new pastor of the Southern Methodist church last night at his residence by many kind-hearted ladies of that faith.

Four in Pendleton is worth, while \$4.50 per barrel, retail \$5.00 per barrel. This is the highest price known for flour in Pendleton for many a year.

The construction of the frame work on H. Turner's new residence which will evidently be a handsome and substantial edifice has begun.

Mrs. J. P. Faul of Baker City is visiting her sister, Mrs. J. P. Eshen, at her residence on Thompson street.

Tommy Nye again officiates behind the counter in Frank M. Cohn & Co's.

R. Alexander was serenaded last night by the Pendleton brass band.

Numbers of people were killed by a traveling fakir museum, consisting of a bear, a manufactured man, a coyote and a three legged horse which lately struck town.

Rid Your Child of Worms.
Thousands of children have worms that sap their vitality and make them listless and irritable. Kickapoo Worm Killer kills and removes the worms and has a tonic effect on the system. Does your child cut, squeal, cry out in sleep or grind its teeth? These are symptoms of worms and you should find relief for them at once. Kickapoo Worm Killer is a pleasant remedy. At your druggist, 25c.—Adv.

SWINE PRICES LOWER—CEREAL HIGHER

PORTLAND, Oct. 16.—With the exception of the mutton and lamb division, all lines showed increased arrivals in the North Portland market as compared with the previous six days.

Very liberal increase was noted in offerings of swine. The market was weak all through the six days' trading and lower prices were forced from day to day.

Aside from the fact that there was a greater run of hogs in the local yards for the week than during the preceding six days, the fact remains that killers generally are inclined to bear down on values in anticipation of an early movement of stubble stuff. To date there has been but a small amount of stubble hogs reported in and the movement has been much delayed from other seasons.

General hog market:
Choice light weights \$9.45@9.50
Good light weights 9.25@9.40
Medium weights 9.00@9.15
Rough heavy 8.50@8.75

Cattle Slightly Weaker.
Fractional decline in general was noted in the cattle market for the week, although in some lines the trend of the trade at North Portland was considered safely steady.

Killers here and on Puget Sound have been loaded with quality offerings of late despite much talk to the contrary. For that reason they have been less inclined to take hold than during recent weeks. Little attempt was made by killers to depress cattle market values for the very good reason that most of them have high priced stock on hand.

In general there was a good tone in the feeder cattle division of the local market. Good feeder stuff was taken at steady prices although for off quality fractional declines of 10 to 15c were quoted.

General cattle market range:
Prime light steers \$6.75@6.90
Prime heavy steers 7.00@7.15
Good light steers 6.00@6.50
Stockers and feeders 5.00@5.75
Prime horned cows and heifers 5.50@5.75
Common cows 4.00@5.00
Bulls 3.50@4.50
Prime light veal calves 7.00@7.50
Prime heavy veal calves 4.00@6.00

Mutton Market Firmly Held.

Mutton alone showed decreased arrivals in the North Portland yard for the week. As during recent weeks a large per cent of the arrivals came direct to killers from their regular country buyers.

Aside from these there was little real good stuff reported in. In fact, open market offerings of quality mutton and lambs were conspicuous by their absence.

General mutton and lamb market:
Select spring lambs \$ 8.75
Ordinary lambs 8.00@8.25
Best yearlings 7.25@7.50
Good to common wethers 5.75@6.00
Best ewes 5.75@6.00
Heavy to common ewes 4.00@4.50

There has been but little movement in wheat prices at Pacific northwest points for the week. The general feeling in the trade was steady but little activity was shown at country points.

This was due to the fact that the country was not a liberal offerer of wheat, although there was plenty of business in sight if the stock was available at quoted figures.

Foreign markets were inclined to show general strength. The action of the British government in taking charge of all wheat purchases of the country was the principal feature in the world's cereal situation for the week. This action indicated that stocks of wheat abroad are much less favorable than the general trade had anticipated.

The situation in South America is still rather bullish for the price. There has been a rainfall in Argentina but it fell in sections where least needed.

Coarse grains were somewhat firmer at practically all points during the week with oats showing the best feeling. Buying at interior points shows a slight increase. Holders in the country are less inclined to sell than formerly.

Flour—Selling price: Patent, \$7.00; Willamette valley, \$6.60; local straight, \$6.60@6.80; bakers' local, \$6.80@7.00; Montana spring wheat, \$6.40; exports, \$6.30; whole wheat, \$7.20; Graham, \$7.00; rye flour, \$6.75 per barrel.

OREGON MOTHERS FOR NORMAL HERE

PARENT-TEACHERS AND CONGRESS OF MOTHERS PASS JOINT RESOLUTION.

Vote 98 to 1 to Adopt Amendment Providing for Location of a Normal School in This City.

Oregon mothers aligned themselves with those who are fighting for the passage of the amendment providing for the location of a normal school in this city when on Saturday at the annual convention of the Oregon Congress of Mothers and the Parent-Teachers association they adopted by a vote of 98 to 1 the following resolution:

"Recognizing the importance of the trained teacher in our public schools, and knowing that a greater percentage of our teachers would attend a normal school if located within easy reach, and further realizing that for proper training a sufficiently large number of pupils must be available for the training department of a normal school, and, realizing that the government standard recognizes but four factors in determining the location of a normal school, viz:

"1. It should be located so as to serve a well defined area of population.
"2. It should be centrally located in the area to be served.

"3. It should be located in the most convenient railroad center of the district.
"4. It should be located in a community sufficiently large to provide adequate practice teaching facilities.

"And further recognizing that Pendleton possesses all these requirements.

"Be it Resolved, That we, the Oregon Congress of Mothers and Parent-Teachers association endorse the initiative measure to be voted upon at the coming November election for a state normal school for eastern Oregon to be located at Pendleton, Oregon, with the understanding that the public schools of Pendleton shall be available for practice work, and with emphasis on the fact that the school should receive such financial support as the board of regents of the normal schools considers adequate."

Amusements

What the press agents say about Pendleton's present and coming attractions.

The Melting Pot.

The Redpath Lyceum Bureau makes announcement of the producing rights of the great American drama, "The Melting Pot," for Lyceum and Chautauque audiences. Arrangements have been made with the representatives of the author, Israel Zangwill, for a thirty weeks' tour, with the privilege of extension.

No play ever presented for the Lyceum has had such a strong cast of players. The parts in this play require the services of the most accomplished and experienced actors. Nearly all of the players engaged for this tour have played the same parts during the long run of this play in the larger cities. There are nine players in the cast.

"The Melting Pot" is a great drama with an interesting story, but it is just by more than an entertaining production. Mr. Zangwill symbolizes our land as the melting pot of the world. Into this crucible, beneath which burns the fires of our political and social philosophy, refugees from all parts of the earth, men and women oppressed by the arbitrary whims of crime and religion, are poured, to be fused and amalgamated into the sterling gold of a broader, nobler humanity and a self-governed nation. It is a sound philosophy and appeals to every patriotic American citizen.

At the High School auditorium, as a special attraction—not a Lyceum course number, tomorrow evening, Tuesday, October 17th.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

AGEIN' a few seasons in the bushes never hurts Big League timber any. An' agein' in the wood two years helps tobacco consider'bl'.

Velvet Joe

This Natural Ageing Is the One Way to Bring Tobacco to Its Best

YOU can prove it for yourself by smoking a pipeful of VELVET—the tobacco aged in Nature's way.

This two years' natural ageing gives VELVET a mellow smoothness that age alone gives to tobacco. Try it.

Vandeville will feel the uplift presently, as the gentlemanly baseball players will now have time to adorn the stage.

IF BACK HURTS BEGIN ON SALTS

FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney, cures so they sluggishly filter of strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid uric acid which has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

BETTER AND SOFTER LIGHT

is assured by the use of some of these beautiful fixtures of ours. They give a light that illuminates the room perfectly, but that does not tire or strain the eyes. They are not expensive considering their extra efficiency and extra beauty. Why not at least see them?

J. L. VAUGHAN

Cataract Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or in perfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces of the Eustachian Tube. Catarrh of the Eustachian Tube acts thru the blood on the catarrhal surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists. The E. J. CHENEY & CO., Toledo, O.
